Looking for a game design internship from May to August 2027, on site or remote

PROFILE

Second-year Game Design student at ISART Digital, focused on level design and system design: playable prototypes, player-focused levels and balanced systems, iterated through playtests and documented in clear GDDs.

SKILLS

Game design: level design, system design, 3C, game feel, balancing, prototyping, narrative design, UI/UX, GDD writing, playtesting.
Software: Unity (C#, Visual Scripting, Cinemachine, DOTween), Ren'Py, Python, SQL, Excel, Photoshop, Blender, After Effects.
Soft skills: teamwork, communication, autonomy, rigor, creativity.

PROJECTS

LUMI'S JAR — Personal project · Desktop idle game — 10/2026

Concept, game design and production

- Designed an idle loop driven by the player's real activity: every keystroke and click earns coins, without getting in the way.
- Built the progression and prestige: 15 jars with different powers, 16 outfits, 14 events, 36 achievements and 2 endings, in French and English.
- Balanced the economy with a dedicated model, tuned with 10 playtesters (2 to 5 hours to finish the game).

PUSH PUSH — ISART project · 2.5D puzzle platformer · Unity · Team of 9 — 02/2026 - 04/2026

Game Designer, level design and 3C

- Designed about 15 levels across a 6-world game (blockouts, layouts, difficulty curve), teaching the core mechanic without a tutorial.
- Tuned the 3C (camera, jump curves, collisions) and refined game feel and visual feedback over 50 playtests.

FATAL BOING! — ISART project · 2-player one-button party game · Unity · Solo — 02/2026 - 04/2026

Game Designer and developer

- Developed the whole game solo: rules, Visual Scripting programming, UI and sound design.
- Balanced 3 classes and their power-ups to allow comebacks, tested with 15 players; polished game feel (screen shake, hitstop, particles).

AMY — Student project · Investigation visual novel · Ren'Py · Team — 06/2026

Narrative Designer and Game Designer

- Wrote a 4-ending script with 500+ lines of branching dialogue raising awareness of bullying; designed the investigation loop.
- Scripted the game in Ren'Py (evidence, inventory, variables) and handled animation, staging and audio integration.

BESTINARIUM — ISART project · Board game · Team — 11/2025 - 12/2025

- Designed card synergies and balanced the stats.

WORK EXPERIENCE

LABORATORY PREPARATION ASSISTANT — Institut Curie, Paris — 07/2026 - 08/2026

- Prepared samples and managed equipment, strictly following protocols in a demanding environment.

EVENT HOST — Mahola · Roland-Garros and Accor Arena, Paris — 05/2025 - 08/2025

- Welcomed guests, controlled access and managed the flow of thousands of spectators at large-scale events.

VOLUNTEER, DISABILITY SUPPORT — Centre Lecourbe, Paris — 10/2023 - 12/2023

- Organized adapted play activities, building patience, listening and adaptability.

EDUCATION

MASTER'S LEVEL DEGREE IN GAME DESIGN — ISART Digital, Paris · Second year, expected graduation 2030 — 09/2025 - 2030
FIRST YEAR OF BSC IN COMPUTER SCIENCE — Sorbonne Université, Jussieu campus — 09/2024 - 06/2025
FRENCH BACCALAURÉAT, WITH HONORS — Lerebours, Paris — 2021 - 2024

LANGUAGES AND INTERESTS

Languages: French (native), English C1, Portuguese C1, Spanish B1, Japanese A2.
Interests: video games and board games, reading, Japanese culture, travel, swimming.
